

LAX

Los Angeles World Airports

Noise Alert

Issue Date: 4/14/2017

LOS ANGELES INTERNATIONAL AIRPORT (LAX)
DEVIATION FROM OVER-OCEAN OPERATIONS

April 17 - 19, 2017

12 AM – 6:30 AM

LAX will temporarily deviate from Over-Ocean Operations for three nights (12 AM – 6:30 AM) on Monday, April 17th through Wednesday, April 19th, due to the closure of south outboard runway 25L/7R for maintenance.

The FAA normally transitions [LAX air traffic flow](#) to Over-Ocean Operations from 12 AM to 6:30 AM, wherein aircraft arrive and depart over the ocean to minimize noise disturbance to the communities directly east of the airport. During this traffic flow, the south runway complex is utilized primarily for departures while the north runway complex is utilized primarily for arrivals.

The closure of Runway 25L/7R requires Aircraft Design Group VI aircraft (A380 and B748) to depart on Runway 24L/6R on the north complex, which would conflict with aircraft arrivals on the same runway complex during Over-Ocean Operations. Therefore, the FAA plans to deviate temporarily from this traffic flow and maintain air traffic in Westerly Operations during these three nights. As a result, persons living near the airport may notice a change in aircraft flight activity and associated noise.

Thank you for your understanding and patience during this temporary situation.
