

Construction Hot Topics

Week of June 28, 2021

1. Parking Structure 4: Smart Parking Project

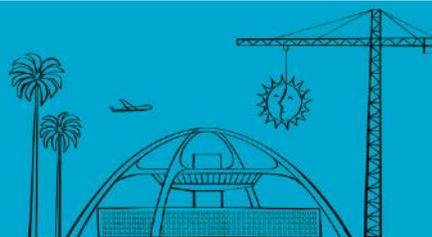

- Parking Structure 4 will experience a reduction in available parking stalls through December 2021 for the ABM Smart Parking Project
- Painting in the structure is scheduled to begin early next week; Other improvements include installation of electric vehicle chargers, PGS systems and pay on foot stations, and more
- Signage is posted to assist with wayfinding; access to and from the structure and vertical circulation is maintained at all times

Example of PGS System (top) and Parking Structure 4 location (bottom)

Change is in the Air(port).

LAX WAY BETTER. REALLY.

3. Terminal 5.5: Construction Progress

- The Terminal 5.5 Core project continues to make progress with ongoing structural
- Upon completion, the Terminal 5.5 building will provide connectivity between Terminals 5 and 6, including enhanced vertical circulation, as well as a pedestrian bridge to the Automated People Mover's Center Station (similar to the current pedestrian bridge work at Terminal 4.5)
- As construction continues, drop-off and pick-up lanes on the Arrivals and Departures Levels are being used as temporary pedestrian walkways; traffic is maintained at all times

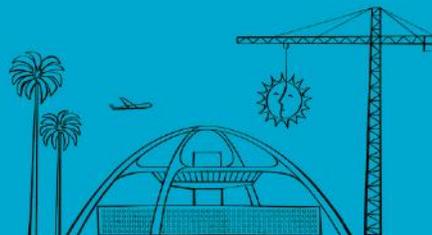

*Terminal 5.5 Progress from
May to June 2021*
