Week of December 21, 2020

## 1. Automated People Mover: Construction Update

- Construction continues on the Automated People Mover (APM) project both inside the Central Terminal Area (CTA) and outside of the airport
- Inside the CTA, the Pedestrian Bridge connecting Terminal 3 and Parking Structure 3 was removed last month; next month, similar work will occur to remove the Pedestrian Bridge connecting Terminal 2 and Parking Structure 2A
- Guideway concrete placement has begun at the future East CTA station between Parking Structures 1 & 7, and is scheduled to begin shortly at the future Center CTA station near Parking Structures 2A & 2B

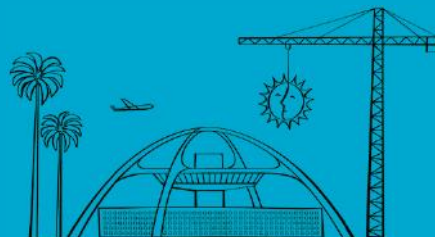

*The APM project will remove the Pedestrian Bridge between Terminal 2 and Parking Structure 2A in January 2021*

*The future guideway of the APM is visible inside the CTA; the portion pictured right runs between the future East and Center CTA stations*

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.

## 2. Consolidated Rent-a-Car Facility: Construction Update

- Construction continues on the Consolidated Rent-a-Car (ConRAC) Facility, which is scheduled for operation in 2023
- Upon completion, the ConRAC will house more than 18,000 rental car vehicles
- ConRAC is located in the Manchester Square area adjacent to the 405 freeway

*Right: A current aerial view of construction progress on the ConRAC*

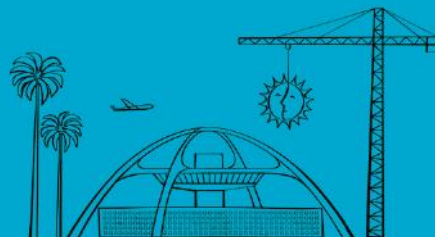

*Below: Rendering of completed ConRAC connecting with the APM train system*

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.

## 3. Terminal 5.5 Core: Construction Update

- Construction is progressing on the Terminal 5.5 Core building between Terminals 5 & 6
- Structural steel is being erected with the help of an airside crane and is now visible from inside the Central Terminal Area
- Lane restrictions are currently in place on the Departures and Arrivals Level roadways to facilitate temporary pedestrian walkways while construction continues adjacent to the future Terminal Core building
- Additional lane restrictions are scheduled on the Arrivals Level in January; watch Construction Hot Topics for more details

*Terminal 5.5 structural steel is visible airside as construction progresses on the project*

## 4. LAX Holiday Moratorium

- The LAX Christmas / New Year Holiday Construction Moratorium is currently in effect through Monday, January 4, 2021 at 9PM
- This moratorium is in place to limit construction-related shutdowns, allowing for critical public-use areas, traffic lanes and utilities to remain available to guests during these peak holiday travel periods

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.
