

Construction Hot Topics

Week of February 1, 2021

1. LAX Sign Painting

- Maintenance work to paint the iconic “LAX” letters at the Century Boulevard entrance / exit to the airport will be performed daily this week
- Single lane restrictions are required for this work; traffic to and from the airport will be maintained at all times

LAX letters to be painted at airport entrance / exit

2. Terminal 5.5: Construction Update

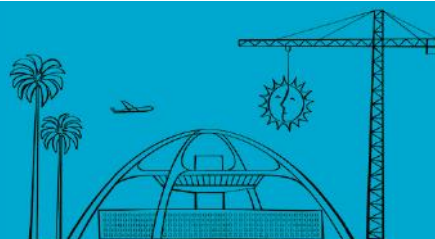

- Construction continues on the Terminal 5.5 Vertical Core between Terminals 5 and 6
- The structure, which will eventually connect with the Automated People Mover, is now visible from inside the CTA
- To facilitate underground utility work for this project, all Arrivals Level Inner Lanes remain closed through late March 2021; detours and signage are in place

Terminal 5.5 steel erection & lane closures

Change is in the Air(port).

LAX WAY BETTER. REALLY.

3. Automated People Mover: West Station Site Progress

- APM construction continues at the West Station site between Parking Structures 3 and 4
- Paving and foundation work is ongoing for the Ground Level of the parking structure that is being built beneath the future APM Guideway
- Pictured below (top) is a photo from two weeks ago compared to (bottom) a current picture of the site – what a difference a few weeks can make!

4. RESCHEDULED Terminal 2: Pedestrian Bridge Demolition

- The demolition of the Pedestrian Bridge connecting Terminal 2 and Parking Structure 2A was scheduled to be demolished and removed last week
- Due to inclement weather and unsafe conditions, this work has been rescheduled for overnight Monday, February 8 into Tuesday, February 9 and overnight Tuesday, February 9 into Wednesday, February 10
- All Arrivals and Departures Level roadway lanes and sidewalks at Terminal 2 will be closed from 12AM to 4AM both nights
- Signage and detours will be in place for employee parking access, vehicular and pedestrian routes, and shuttle operations on both levels
