## 1. Automated People Mover: Project Update

- Construction continues on the Automated People Mover Project at LAX; upon completion it is anticipated to move more than 30 million passengers a year, eliminating an estimated 117,000 vehicle miles traveled per day
- The track at the APM's Maintenance & Storage Facility, located east of Airport Boulevard between Arbor Vitae Street and 96<sup>th</sup> Street, has been fully electrified
- Work will continue to electrify the track on the guideway, after which the first tests of the APM can begin
- The ninth and tenth APM train cars were delivered to LAX earlier this month; there will be a total of 44 train cars, each with the capacity to hold 50 passengers with luggage
