TERMINAL 4: CURBSIDE CONSTRUCTION BARRICADES

To facilitate work for the American Airlines T4/5 Modernization Program, curbside barricades are being constructed on both the Arrivals and Departures Level roadway at Terminal 4. Both sets of barricades require the use of the innermost lane on each level as a temporary pedestrian walkway while the existing sidewalk and typical path of travel is inaccessible due to construction.

These barricades and related temporary pedestrian walkways are scheduled to be in place through November 2027. Visit the [FlyLAX Road Alerts Map](#) for more information about these and other roadway impacts, and watch Construction Hot Topics for more information and updates as this project progresses.

Arrivals Level (left) and Departures Level (right) curbside barricades. Please note, barricades are currently under construction; work is ongoing to complete the barricades and walkways including paint, signage and proper finishes.
