

5. Coordination and Public Involvement

5.1 Introduction

Under 40 CFR § 1501.4, federal agencies are required to involve environmental agencies, applicants, and the public, to the extent practicable, in preparing EAs. Therefore, when conducting the NEPA process, the FAA and the airport sponsor are encouraged to begin early coordination with the proper federal, state, tribal, and local agencies, including surrounding municipalities, to determine any possible environmental concerns as the Draft EA was prepared. The primary components of the agency coordination and public involvement program for the EA include:

- Notification of the publication of the Draft EA for agency and public review in local newspapers; and
- Preparation of a Final EA that will include responses to comments received on the Draft EA.

Keeping agencies and the public informed and gathering their input is an essential component of any environmental study. The following sections summarize the agency coordination and public involvement program for this EA.

5.2 Agency Consultation

Agency consultation was conducted by the FAA and LAWA to explain the Proposed Action and solicit comments and questions. The following agencies were consulted by the FAA and LAWA as part of the Draft EA development process:

- State Historic Preservation Officer (SHPO)

SHPO concurred on the delineation of the Area of Potential Effect (APE) in a letter dated December 26, 2013. SHPO also concurred with FAA's finding of no effect on historic properties in a letter dated April 29, 2014. A copy of both of these letters is provided in Appendix B. FAA received an e-mail from one of the non-federally recognized tribes that said they would submit information. However, FAA did not receive an additional response.

5.3 Comments and Responses on Draft EA

This Draft EA is available for review by the general public, government agencies, and interested parties for a period of 30 days after the date the Notice of Availability (NOA) is published. The Notice of Availability (NOA) of the Draft EA for review was published on May 16, 2014. This NOA was sent to all those included on the mailing list provided by LAWA. The NOA was also published in the following newspapers: *Los Angeles Times*, *The Argonaut*, and the *Daily Breeze*. The NOA was also posted to the LAWA website, www.ourlax.org. Copies of the Draft EA are available for review at the locations listed in **Table 5-1**, and include LAWA offices and the FAA Western-Pacific Regional Office in Hawthorne, California.

All comments received on the Draft EA will be considered by FAA and LAWA in preparing the Final EA.

5.4 Final EA

The Draft EA will be revised as necessary to summarize and incorporate comments received during the public and agency review period. In development of the Final EA, LAWA and the FAA will consider and address all pertinent comments received within the comment period from the general public, agencies, and organizations. Summaries of comments received, responses, and any necessary revisions to the Draft EA will be incorporated into and published in the Final EA. The public and agencies will be notified of the availability of the Final EA for review. The Final EA will be submitted by LAWA to the FAA for their review and determination of whether to issue a Finding of No Significant Impact/Record of Decision (FONSI/ROD) or to prepare an Environmental Impact Statement (EIS).
